

How Do I Customize My Home Page?

Frequently Asked Questions

- What if I want to change my favorite horses, riders or owners?

Under My Stuff, you can choose REORDER OR REMOVE HORSES, RIDERS, OR OWNERS. A list of your favorite entries comes up, and you can move them up higher in the list, or delete them altogether. Similarly you can REORDER OR REMOVE HIGH POINT CATEGORIES by selecting that option under My Stuff.

- Can I change my password?

Yes, from My Home Page you can access your personal account. Under My Account, select CHANGE YOUR PASSWORD. From here you can change your password to the site.

- Can I change my address from My Home Page?

Yes and No. You can change the address of your online account, which is certainly valuable for us to reach you in the future.

But as of now, we don't have the internet talking back to your print subscription address. So if you change your address, please email us to change your print subscription address by emailing frontoffice@horseworld.net.

What I can learn . . .

- Don't perform the same searches every time you come to the site. We can save your searches of individual horses, owners or trainers so that your top five favorites are at your fingertips.
- Get your news customized just for YOU. Input search terms that matter to you and only get the news that includes those terms.
- See the forums that you've posted on in the message boards, and watch where the threads take you.
- Watching the points race in the High Point REPORT in a particular category? Put that category on your home page and it will greet you every time you come to the site.

Where do I start?

In the left hand column, choose My Home Page. In red in the center of the page, you'll see a menu across the top with My Account (where you can change your password and other personal information about yourself), My Stuff and Help. Choose My Stuff and come down to select UPDATE YOUR SEARCH TERMS. From here you can type in the keywords you are interested in, separated by a comma. Click on UPDATE KEYWORDS to bring the stories that include those keywords to your home page.

To include your favorite horses, riders or owners show results on your home page, start from the left column with Check Show Records. Type in the horse, rider, or owners name and click on the button to indicate if it's a horse, rider or owner, then hit SEARCH. It may bring you a list of more than one entry with a similar name, but select the particular entry you are looking for. In the upper right hand corner of the show record is a tan box that says ADD TO MY HOME PAGE. Click here and when you go back to My Home Page, it will include this entry. You can include up to five of your favorites on your home page.

Similarly in the High Point REPORT, when you are looking at a High Point

REPORT category, you'll see an ADD TO MY HOME PAGE button and that High Point category will show up on your Home Page from then on.

Your Home Page will automatically show you the last ten message board forums you've participated in as a part of your personalized copy of the REPORT online.
